## EDUCATION

### Bina Nusantara University

*Undergraduate in Computer Science Major, Cumulative GPA of 3.93 as of 4th semester*

Jakarta, Indonesia

Aug. 2023 – Present

## EXPERIENCE

### Associate Programmer

*Bina Nusantara IT Division*

March 2025 – Present

*Jakarta, Indonesia*

- Developed features for BINUS AcademicService and Library websites, working on both backend and frontend using ASP.NET Web API, Azure Function, and React Typescript
- Successfully delivered 4 major features that enhanced functionality and usability of the platforms.
- Collaborated closely with System Analysts to align development with business requirements and ensure smooth delivery of backlogs.
- Participated in daily stand-up meetings to share progress, address challenges, and coordinate with the team.
- Worked under an Agile methodology, ensuring iterative development and continuous improvement.

### Flutter Instructor

*Bina Nusantara Computer Club (BNCC)*

Nov. 2024 – May 2025

*Jakarta, Indonesia*

- Taught 13 sessions (100 minutes each) in the Flutter Regular Class program.
- Guided and mentored 7 BNCC members in learning Flutter fundamentals and application development.
- Designed and evaluated quizzes every 3 sessions to track progress and reinforce understanding.
- Reviewed and assessed mid-term and final projects, providing feedback to improve technical skills and code quality.

## PROJECTS

### EcoAir | Dart, Flutter, Open Street Map

August 2025 – Sept 2025

- Developed Android and IOS application using Flutter with Open Street Map and OpenWeather API
- Implemented Dio package to retrieve data from API
- Slicing total of 30 screen from figma and ensure it is quality and responsiveness
- Use Geolocator to get realtime user's location

### RentCar | ASP.NET Web API, React-Ts, Tailwind, Shadcn, PostgreSQL, Railway

July 2025 – Sept 2025

- Developed a RentCar service where customer can rent a car and employee can manage car data
- Using Tanstack Table and modify it to server side pagination to increase performance on large data
- Implemented Authentication and Authorization for customer and employee using JWT
- Using Docker to containerized the backend for easy deploy to Railway

### CeritaNusa | Flutter, Firebase, Supabase, Django, MongoDB

Feb 2025 – June 2025

- Developed a Cross Platform Mobile Application for learning Indonesian's History through Material, Quiz, and Chat with tutor
- Using Firebase for Authentication and Authorization
- Consume API using Dio and Manage state using BLOC
- Using Supabase for free Image Bucket
